

Meridian Freight - Dispatch API Release Notes

Version 2.4 - August 2026

New

- **Peppol e-invoicing:** dispatch invoices are now issued as Peppol BIS Billing 3.0 UBL.
- **Webhook retries:** failed delivery notifications retry with exponential backoff for 24 hours.

Improved

- Booking confirmations now include the assigned trailer and seal numbers.
- The tracking endpoint returns ETA drift in minutes instead of a status enum.

Fixed

- Fixed a rounding error in fuel surcharge lines for cross-border lanes.
- Proof-of-delivery PDFs no longer omit the consignee signature block on multi-page documents.

Meridian Freight is a fictional company used for ConvertAPI demo files.
